LETTER OF INVITATION

Dear friends,

Greetings from beautiful Bengaluru!

For many women childbirth is a matter of life or death; for every woman who dies in childbirth related complications, another 30 face severe discomfort and emotional distress and are even abandoned by their families. But the story does not end there. A child without a mother is four times more likely to die prematurely. Ten years ago the United Nations adopted the Millennium Development Goals (MDGs) of which the fifth goal (MDG 5) commits the world to reduce maternal mortality by 75 percent. We believe that the tide is changing and the world is beginning to see the significance of investing in maternal health. It is crucial that we harness this momentum and keep moving forward to ensure that women - wherever they are - receive the care they need to stay alive and stay healthy.

With this motto in mind, the Federation of Obstetric & Gynecologic Societies of India is putting together an International Conference on Emergencies in Obstetrics on the 29th, 30th & 31st of July 2011 in Bengaluru. The conference will address practical management issues relating to SAMM, which is the way forward to reduce maternal mortality. We are honored to have Dr. Gamal Serour, President of FIGO, for a keynote address. Eminent speakers from India and abroad are getting ready to add value to this highly interactive conference. The pre-conference workshops on EMOC drills and safety in abortions and cesarean sections are specially structured for skillful handling of emergency situations.

Let us put ourselves together to update ourselves and reach the pinnacle!

"Teamwork is the ability to work together toward a common vision.

The ability to direct individual accomplishments toward organizational objectives.

It is the fuel that allows common people to attain uncommon results."

And, this is happening in Bengaluru, a city that is abuzz with umpteen things to interest every visitor – from the parks and malls to hotels and pubs, not to mention the pleasant climate!

We invite you to be a part of this very exclusive event with a very special purpose!

Please come, sport your white ribbons and play your part!

Dr. P. C. Mahapatra
