*Physician LRC*
- Must be working in an AOFOG LRC (Bangladesh, Cambodia, Egypt, India, Indonesia, Laos, Mongolia, Myanmar, Nepal, Pakistan, Papua New Guinea, Philippines, Sri Lanka, Vietnam). Cut-off date for standard registration period.

**Trainee/Nurse/Allied Healthcare**
- Verification letters required from institution should be submitted in the online registration process.

Group Registration Discount
- Any national societies meet the conditions below can receive the discounted registration fees.
  - 10% concession for 25 physicians
  - 15% concession for 50 or more physicians
- The above discount is only applied to Physician International & Physician LRC category who have completed registration during the early-registration period.
- If you are interested in the group registration discount above, please contact the AOFOG 2024 Secretariat at info@aofog2024.org one month before the early-registration deadline and we will guide you through the detailed procedure.
- Only pre-confirmed registrants for group registrations will be given a registration fee discount code.
Abstract Submission

- We invite you to submit papers. Accepted papers will be presented at the AOFOG 2024 as either Oral session or ePosters.

Important Dates
- Abstract submission deadline by Dec 31, 2023
- Acceptance notification by Jan 31, 2024
- Early bird and author registration deadline by Feb 29, 2024

Topics
- When submitting your abstract, select one of the topics below suitable for your abstract in the “Topics” section and choose your preferred presentation format from Oral, ePoster or Either.
  1. Obstetrics
  2. Reproductive Endocrinology
  3. Gyn Oncology
  4. Urogynecology
  5. General Gynecology

Submission Guidelines
- Authors are required to submit an English abstract (text only, no template) of maximum of 300 words, along with author’s contact information.

The online submission form is divided into the following sections:

- Objective: Concise statement on why the study was conducted.
- Method: Location, number and type of human subjects, non-human species or material being studied. Design of the study and type of intervention. Principal assays or test(s) performed and the types of statistical analyses if appropriate.
- Results: Main findings and results should be reported. Results should be supported by statistical analysis where appropriate.
- Conclusions: Main conclusions of the study and significance of the results. How the results may affect patient management or understanding of the condition.
