

Dear ESGO family, friends, and colleagues,

It is our great pleasure to invite you to join us at the **25th European Congress on Gynaecological Oncology** (ESGO 2024), which will take place in March 7-10, 2024, in Barcelona, Spain.

The ESGO Congress in 2024 is planned to build on the success of past ESGO congresses, each of which attracted more than 2 500 participants from more than 90 countries. At ESGO 2023 in Istanbul we have celebrated the 40th anniversary of our society with our past Presidents. Now we are starting **a new era of ESGO spring congress**.

The ESGO Congress in Barcelona aims to bring together an international audience in gynaecological cancer involving all multidisciplinary specialities to share the best clinical practices and research discoveries that will shape the future of the treatment of gynaecological malignancies and raise the bar of the standards of care.

The **Congress programme** will feature lectures, debates, and panel discussions led by selected experts sharing their knowledge, outlining the most recent advances in the medical field and surgical techniques, and addressing hot controversial topics. Moreover, deep learning in the updates in the management of endometrial, ovarian, cervical, vulvar cancer, and rare gynaecological tumours will be provided. On top of that, **Live surgery session** has been planned to have the opportunity to appreciate the best European surgeons dealing with complex surgical decisions. The Congress will enable professionals to keep up to date with the latest research in the surgical and medical field of gynaecologic cancer management, learn directly from the experience of other colleagues, and create an excellent platform for valuable face-to-face networking and knowledge exchange.

Additionally, Barcelona is a welcoming city with a warm climate and people. An international and cosmopolitan metropolis, open to the sea and to the mountains. The congress will be held in an unbeatable place on the shores of the Mediterranean Sea with the best facilities and services. The cradle of Gaudi's modernism hosts the most important event of Oncological Gynaecology, as its slogan proposes, "**Join the mosaic in beating cancer**".

We welcome you to join us at ESGO 2024 in Barcelona, where the community of gynaecological cancer professionals will meet to advance the future of gynaecologic cancer treatment, shape the future of our patients, and move us all a significant step further together.

Yours Sincerely,

Dr. Jordi Ponce
Congress President

Prof. Nicole Concin
ESGO President

Dr. Domenica Lorusso
Scientific Programme Committee Chair
