**FOGSI - SOUTH ZONE
VICE PRESIDENT
CONFERENCE 2023**
KODAIKANAL

Dear Friends,

On behalf of the Organizing Committee, we are pleased to announce the conduct of FOGSI South Zone Conference at Kodaikanal, Tamilnadu, on 11,12,& 13th August 2023 @ Kodai International Hotel.

Our aim is to bring together young Obstetricians & Gynaecologists, Doyens of the industry and Researchers in this field to share their knowledge.

This Conference has a variety of academic feast as there are International & National experts taking part to make this program extremely effective. The Workshops are led by experts and will keep all the participants on the leading edge of their field.

Kodaikanal is a hill town in Tamilnadu at 2000 meters above the sea level. It is set in an area of Granite cliffs, forested valleys, lakes, water falls & Grassy hills, thus making a perfect setting for a Conference.

We look forward to meeting you all personally and welcome your participation in various social events planned.

FOGSI - SOUTH ZONE VICE PRESIDENT CONFERENCE 2023

KODAIKANAL

SILVER CASCADE, 8 kilometres (5.0 mi) from Kodaikanal at a wide bend in the long and winding Laws Ghat Road, at altitude 1,800 metres (5,900 ft), is a 55-metre (180 ft) waterfall formed from the outflow of Kodaikanal Lake. This waterfall is a common stop for first-time visitors. There are a few souvenir and fruit vendors and many monkeys here. There is also a smaller waterfall below the bridge which crosses the stream here.

KODAIKANAL LAKE is an artificial, roughly star-shaped 45-hectare (110-acre) lake built in 1863. It is Kodaikanal's most popular geographic landmark and tourist attraction. Rowboats and pedalos can be hired at the Kodaikanal Boat Club. Horses and bicycles can be hired beside the lake for short periods. The 5 kilometres (3.1 mi) path that skirts the periphery of this lake is a favourite walk for locals and tourists alike.

GUNA CAVES, made popular by the Tamil movie Gunaa, previously called Devil's Kitchen, are deep bat-infested chambers between the three gigantic boulders that are the Pillar Rocks. The deep narrow ravines of the caves are now closed to public due to the deaths of twelve youths there. These dangerous caves are highly protected now, and tourists can see sections of the cave system from afar. In the late 1970s the inside of the caves was well photographed.

DOLPHIN'S NOSE, 8 kilometres (5.0 mi) from the bus stand, is a flat rock projecting over a chasm 2,000 metres (6,600 ft) deep. It is an undisturbed area 1 kilometre (0.62 mi) down a steep rocky trail beginning soon after Pambar Bridge. Views of steep rocky escarpments rising from the plains can be seen. The old village of Vellagavi can be reached through a rugged bridle path here. A short paved walkway leads from the road here to Pambar Falls (which is also locally addressed as 'Liril Falls' after the Liril Soap advertisement filmed in 1985).

PINE TREES, in addition to Shola and Eucalyptus trees, are found in abundance in many parts of Kodaikanal. However, only two sites have become popular as a tourist destination amongst the travellers namely Pine Forest-1 and Pine Forest-2.

VATTAKANAL is ideal for small group of friends and adventurous young couples who like to explore less-touristy places with a bohemian or hipster vibe. It is an ideal solo destination as well.

BERIJAM LAKE is pure and excellent quality water is the main source of water for the town named Periyakulam. Periyakulam is located below the Kodaikanal hill station. The lake is rich in flora and fauna. One can spot fauna like bison, leopard around the lake.

KURINJI ANDAVAR TEMPLE was constructed in 1936 by Lady Leelavathi Ramanathan, an Australian who married the Solicitor General of Ceylon called Ponnambalam Ramanatham. Hindu scriptures inspired her so much that she converted into a Hindu, and after her husband died, she built this temple commemorating his memory.
