

Dear FOGSIANS.

Greetings of the day.

In our day-to-day practice, we come across tumour cases where there is a dire need to have opinion of multi-disciplinary specialities. In case of Institutes, there is the facility of Tumour board, hence it becomes easy to find the right approach whereas Gynaecologists practicing in small nursing homes and corporates face this challenge time and again for the want of Multidisciplinary approach towards case management.

WELCOME to the FOGSI Monthly series of VIRTUAL TUMOR BOARD organised by FOGSI GYNAECOLOGIC ONCOLOGY COMMITTEE.

Every month a teaching institute will be involved to conduct a multidisciplinary virtual tumour board for discussing their interesting cases in the first session and 2nd session will be reserved for discussing the cases of Fogsians who wish to discuss their individual case with the multidisciplinary tumour board.

FOGSIANS are encouraged to avail this unique opportunity to get professional guidance in difficult case management.

Kindly mail your case to office@fogsi.org before 5th of every month. You will receive an intimation mail on the date when your case will be discussed. Two to three cases will be discussed per month. The organising team will do its best to bring up the important cases for open discussion and has all the rights reserved to choose the cases to be brought up for the monthly discussion.

The details of the monthly calendar is attached for kind perusal.

Disclaimer- This is purely a knowledge enhancement drill for better case understanding of various challenging cases. The advice from the tumour board is purely a scientific discussion by the multidisciplinary experts. This is not a guideline. FOGSIANS may adopt it as per the availability of the resources at their particular facility.

Pls note- The advice cannot be quoted in any legal proceedings.

The information regarding the monthly link will be put up on the FOGSI WEBSITE. Kindly visit the website link www.fogsi.org for monthly details.
